

Twinkling Traditions
by High Prairie

There is a *magic* and *wonder* surrounding the holiday season. The cool temperatures and clear skies create the perfect backdrop for celebrating another year end. This is the time of year for spending time with loved ones, reflecting on our blessings, and celebrating our traditions. At High Prairie Landscape Group, we celebrate the season with one of Kansas City's only award winning Holiday Décor and Lighting divisions.

We LOVE the holidays. It shows in what we do. Our services are all about creating experiences without our client doing the work. We design. We install. We maintain. We store the décor. All you have to do is enjoy.

In the following pages, you'll learn what makes us different. We don't use box store lights. Your lights will be constructed and cut specifically for your home. Everything is custom cut.

Since we have designers on staff, you'll get design services. We understand balance and the value in planned focal points. We can do elegant. We can do fun. We're created for the purpose of providing something different. Our company culture thrives on thinking differently.

Our fresh arrangements are custom created. You don't have to call three companies to get a designer, lighting installer, and fresh greens specialist. We do it all. We do it well.

High Prairie Landscape Group was created for the purpose of providing something different. Our company culture thrives on thinking differently. We're not like any other company. Our approach is unique and each of our clients is unique. People deserve so much more. That's why we're here.

Services

- ❖ **Lighting** - Rooflines, doors, windows, trees, shrubs
- ❖ **Greenery** - Wreaths, garland, Christmas trees, tear-drops
- ❖ **Bows** - Custom sizes, wire edges for years of re-use

All Inclusive Installation Service

Minleon Plug
and Play Tree

1. **Design**- Experience your holiday home through the eyes of a trained designer. We'll listen to your needs, study your site, and provide ideas CUSTOMIZED JUST FOR YOU!
2. **Materials**- PRO-GRADE lights, wires, greenery, and décor.
3. **Installation**- Non-invasive installation techniques to limit damage to your home, no matter whether it's brick, stucco, wood, or something else.
4. **Pro-Active Maintenance**- We routinely check your décor for you so that loose wires, bulbs, and any other needs are taken care of.
5. **Timely Takedown**- Your lights and décor will be removed by the second week of January without you having to lift a finger.
6. **Secure Storage**- After removal, we'll store the lights at the proper temperature in air-tight containers where no insects or pests can damage them.

*Pro-Grade vs. Box Store Lights

Pro-Grade

- ❖ Safety: Heavier gauge wire for increased safety and less chance of overload or fires.
- ❖ Rugged Design: Seals in each socket keep moisture and dirt free for years of use.
- ❖ Color: Clear, Vibrant colors.
- ❖ Longevity: Years of use with strands lasting 8-15 years.

Box Store

- ❖ Safety: Lowest quality gauge of wiring and fuses for increased fire risk.
- ❖ Durability: No seal in each light socket allowing dirt and moisture in. (Water in the socket is the #1 cause of failure.)
- ❖ Color: Low quality lights produce poor color
- ❖ Longevity: Use is intended for 1-3 years.

*LED or Incandescent?

LED

- ❖ Safety: Cool touch lamps for decreased burn risk.
- ❖ Rugged Design: Pro-Grade can be dropped, stepped on, etc. and still run for years!
- ❖ Energy Savings: Up to 98% less energy use.
- ❖ Longevity: Average bulb life ranges between 7-10 years!!
- ❖ Colors: Clearer, brighter, more tones.
- ❖ Larger investment initially. Savings occur over time.
- ❖ Capability to add more lights on one electrical breaker.

INCANDESCENT

- ❖ Safety: Heats up. Risk of burn and fire increases.
- ❖ Durability: Easily broken or damaged causing outages and replacements.
- ❖ Energy Splurge: 98% more on electrical bills and can't use as many lights on a circuit.
- ❖ Longevity: Average bulb life ranges between 3 months to 1 year!
- ❖ Colors: Warm, but duller. Less color options.
- ❖ Less Initial Financial Investment/More expensive long-term

Roofline

Custom color blends chosen by you. Cut to your exact roof measurements.

*Pricing includes install, removal, and storage.

Pro-grade products, 12" spacing.

*Tree Wraps

Tree wraps are a way to provide height and texture in holiday lighting displays. Their beauty comes with an investment. Tree wraps are labor intensive and often require more lights per tree than most rooflines.

Inner-Tree Wrap
Individual branches are wrapped.

Outer-Tree Wrap
Outer perimeter of tree is wrapped.

Size	Light Type	Inner Wrap	Outer Wrap
x-small: <10'	LED-Mini 5mm wide angle	\$138.00	\$128.00
